

EXTRA GROUP

Excellence Across Trade, Services, and Integrated Sustainable Solutions ...

Excellence Across Trade, Services, and Integrated Sustainable Solutions ...

CORPORATE OVERVIEW

EXTRA Group for Industrial & Investment

Established 2010 | Yemen & Regional Operations

EXTRA Group stands as a premier industrial and investment conglomerate in the Republic of Yemen, operating across several vital and strategic sectors. Our ambitious journey commenced in 2010 with the establishment of our foundational pillars: Extra Pharma for pharmaceuticals and medical supplies, and Extra Petroleum for oil and gas services. Since its inception, the Group has solidified its market position through a clear vision aimed at building specialized, robust entities capable of delivering high-quality products and professional corporate services that meet local market demands while expanding toward regional horizons.

Strategic Expansion and Integration

Building upon a proven track record of success, a prestigious reputation with elite global partners, and the profound trust of our extensive client base, the Group has moved steadfastly toward diversifying its operations. This strategic evolution has culminated in the launch of three new entities that synergize with their sister companies under the parent Group's umbrella:

- Emaar Extra for Contracting (General Construction & Contracting).
- Extra Green Energy (Energy Solutions & Services).
- Extra Medical (Pharmaceutical Manufacturing).

Innovative Solutions and Corporate Governance

Through its five subsidiaries, EXTRA Group provides integrated solutions to an elite clientele, including government institutions, the private sector, international organizations, and humanitarian agencies, as well as major industrial and commercial projects. Each subsidiary operates with specialized expertise and full autonomy, while simultaneously leveraging shared resources, cumulative experience, and a unified corporate governance system. Our operations are powered by the world-class ERPNext system to ensure maximum agility, transparency, and efficiency in business management.

Commitment to International Quality Standards

Our sustained excellence is a natural result of implementing the latest corporate strategies, bolstered by a highly skilled and exceptional workforce. As a testament to our unwavering commitment to quality and reliability, the Group's companies have earned prestigious international certifications and accreditations, most notably:

- ISO 9001:2015 (Quality Management System).
- TÜV AUSTRIA (International Quality Accreditation).
- Good Distribution Practice (GDP) (Ensuring supply chain safety and quality).
- QUAMED (Quality Certification Programme for medical procurement).

STRATEGIC DIRECTIONS

Shaping the Future with a Global Perspective

At EXTRA Group, we believe that sustainability and leadership are only achievable through a clearly defined strategic roadmap—one that harmonizes ambitious expansion with operational discipline to serve as the professional framework governing all our investment sectors.

OUR VISION

Leadership Beyond Borders

We aspire to solidify EXTRA Group's standing as a premier economic conglomerate and a regional investment powerhouse. Our goal is to set new benchmarks for excellence and innovation across every sector we lead. Our vision transcends mere commercial success; we strive to be the trusted partner and the inspiring model in building a knowledge-based economy and fostering sustainable development, transforming challenges into strategic opportunities for future generations.

OUR MISSION

Committed to Values, Driven by Impact

Our mission is to provide an integrated ecosystem of high-tier professional products and services, meticulously designed according to the most rigorous international standards and global protocols. We dedicate our resources and cumulative expertise to support national development, maintaining an absolute focus on creating long-term added value for our clients and strategic partners. We are committed to investing in human capital and cutting-edge technologies to ensure the delivery of innovative solutions that contribute to the prosperity of the communities we are privileged to serve.

CORE VALUES

The Solid Pillars of Our Identity

The strength of EXTRA Group stems from a robust value system that forms the core of our corporate identity and serves as the primary driver for all our investment decisions:

- **Absolute Integrity & Transparency:**

  We adhere to the highest ethical standards, adopting a principle of complete clarity and honesty in all interactions with partners, regulatory bodies, and clients, firmly believing that trust is our most valuable capital.

- **Uncompromising Commitment to Quality:**

  There is no compromise when it comes to mastery. We constantly strive to exceed client expectations by adopting global quality control systems throughout all stages of production and execution, ensuring outcomes characterized by precision and excellence.

- **Continuous Innovation & Professionalism:**

  We embrace a culture of perpetual development, encouraging creative solutions that challenge traditional frameworks while maintaining a dignified corporate character and high-level performance.

- **Social Responsibility & Strategic Safety:**

  We prioritize the protection of individuals, environmental conservation, and resource sustainability, with full compliance with all occupational safety regulations and initiatives that serve the public good.

- **Team Synergy & Integration:**

  We believe our strength lies in the diversity of our expertise and the cohesion of our team. Therefore, we foster a culture of cross-sector teamwork to achieve shared goals and ensure maximum satisfaction for our clients.

STRATEGIC SECTORS

Diversified Investment & Active Presence

EXTRA Group derives its strength from its expansive strategic presence across vital sectors that form the fundamental pillars of economy and development. We lead integrated operational processes through our subsidiaries, delivering high-caliber solutions that meet the aspirations of our partners and clients in accordance with the most prestigious global standards.

I. Pharmaceuticals & Medical Supplies Sector (Extra Pharma)

This sector represents a primary pillar of the Group. Extra Pharma specializes in the importation and distribution of high-quality pharmaceuticals and medical equipment. Through our partnerships with leading global manufacturers, we ensure the provision of the latest therapeutic solutions and medical technologies to the local market. We maintain rigorous adherence to international supply chain protocols and Good Storage and Distribution Practices (GSDP) to ensure the safe and secure delivery of medicines and medical gear.

II. Oil & Gas Services Sector (Extra Petroleum)

Through Extra Petroleum, we play a vital role in supporting the energy and petroleum services sector. We provide specialized technical and logistical solutions tailored to the requirements of complex oil and gas projects. Our operations in this sector are characterized by extreme precision and strict compliance with global safety and environmental standards, backed by extensive field expertise and a highly competent workforce capable of managing the demands of production and supply operations in this critical field.

III. Renewable & Clean Energy Sector (Extra Green Energy)

In response to global sustainability trends, Extra Green Energy specializes in the importation, supply, and installation of state-of-the-art clean energy equipment and systems. We provide integrated solar and alternative energy solutions serving residential, commercial, and industrial sectors. We focus on sourcing premium components and technologies that ensure operational efficiency and system longevity, actively contributing to carbon footprint reduction and energy cost optimization for our clients.

IV. Construction & Engineering Contracting Sector (Emaar Extra)

Our aspirations for building the future are embodied through Emaar Extra for Contracting, where we specialize in executing construction and infrastructure projects using innovative engineering methods. Our activities encompass the delivery of major projects with a focus on execution quality, adherence to timelines, and the application of the highest architectural and structural engineering standards to ensure the sustainability and investment value of facilities, keeping pace with desired urban and developmental advancements.

V. Pharmaceutical Manufacturing Sector (Extra Medical)

Reflecting our vision for self-sufficiency and health security, Extra Medical focuses on advanced pharmaceutical manufacturing. We invest in the latest production lines and laboratory technologies to manufacture pharmaceutical products that rival global counterparts in quality. Fully committed to Good Manufacturing Practices (GMP), we contribute to the development of the national industry by providing effective and reliable therapeutic alternatives.

CAPABILITIES & COMPETITIVE ADVANTAGES

Engines of Institutional Excellence

In executing its major operations, EXTRA Group relies on an integrated ecosystem of capabilities and qualifications that ensure leadership across all sectors. We harmonize deep-rooted expertise with modern methodologies to deliver performance characterized by precision and high reliability. "Executed 500 + large-scale projects"

Our key capabilities and competitive advantages include:

1. Multi-Sector Strategic Expertise

We possess a profound and comprehensive understanding of market requirements in the energy, healthcare, and construction sectors. This cumulative experience enables us to provide cross-functional solutions that are flexible and adaptable to shifting economic and technical challenges, thereby enhancing the efficiency of our investment and operational decisions.

2. Elite Technical Teams & Exceptional Human Capital

The workforce at EXTRA Group is our true capital. Our group comprises an elite cadre of specialized engineers, consultants, and technicians who possess the necessary skills to manage the most complex engineering, medical, and logistical projects according to the latest global protocols.

3. Robust International Alliances & Partnerships

Over the years, we have built an extensive network of strategic partnerships with leading global manufacturers and international consultancy firms. These alliances grant us exclusive access to the latest technologies and products, bolstering our competitiveness and establishing us as a trusted bridge for transferring global technology to the local market.

4. Reliable Supply Chains & Logistical Solutions

The Group maintains a robust logistical infrastructure and secured supply chains that ensure the uninterrupted flow of resources and products. We implement rigorous Good Storage and Distribution Practices (GSDP), ensuring the safety of sensitive pharmaceutical and petroleum materials and guaranteeing rapid response to the requirements of clients and international organizations.

5. Corporate Governance & Advanced Technical Management

The Group is managed under a strict governance system that promotes transparency and accountability. By utilizing state-of-the-art Enterprise Resource Planning systems (ERPNext), we ensure intelligent and precise management of data, finance, and operations, which accelerates decision-making and achieves maximum administrative efficiency.

6. Capacity for Leading Mega Projects

We possess the financial and technical solvency required to manage and execute large-scale, complex projects. Our ability to mobilize resources and organize field operations makes us the preferred partner for national projects and international initiatives that demand long-term resilience and extreme precision.

7. Absolute Commitment to Quality & Safety Standards (HSE)

We prioritize occupational safety, environmental protection, and the quality of deliverables above all else. We apply stringent Health, Safety, and Environment (HSE) standards across all our sites and hold international certifications (ISO) that confirm quality is not just a goal, but a daily practice in every detail of our business.

MARKET SCOPE & TARGET SECTORS

Strategic Presence and Cross-Sector Partnerships

EXTRA Group adopts a flexible operational model that enables effective penetration into various vital markets, backed by a high capacity to adapt to shifting market demands and deliver solutions that align with global standards. We direct our capabilities to serve a broad spectrum of market segments and strategic partners:

1. Healthcare & Medical Institutions Market

We are the primary supplier and strategic partner for the healthcare ecosystem, effectively serving public and private hospitals, specialized medical centers, clinics, and pharmacy networks. Our focus in this market is on providing the latest therapeutic solutions and medical equipment while ensuring supply continuity in accordance with the highest pharmaceutical safety standards, thereby enhancing the efficiency of medical services provided to the community.

2. Public Sector & Government Development Projects

We act as a trusted partner in supporting national development plans, actively contributing to the requirements of ministries and government service institutions. In this market, we focus on delivering integrated solutions that bolster infrastructure, enhance public services, and contribute to comprehensive economic growth by executing major national projects with the highest standards of corporate discipline and reliability.

3. International Organizations & Humanitarian Agencies

The Group possesses a distinguished and proven track record in the humanitarian and international cooperation market. We take pride in being a preferred and accredited supplier for an elite group of international organizations and United Nations agencies. We distinguish ourselves in this market through our superior ability for rapid response and the provision of complex logistical and supply solutions under challenging conditions, with strict adherence to international transparency and quality protocols.

4. Industrial, Commercial & Construction Corporations

We provide our services to elite leaders in the private sector and major industrial facilities, offering the logistical, technical, and technological support necessary for their operational sustainability. We aim to establish long-term relationships with major investors and commercial firms, providing solutions that reduce operational costs and elevate performance efficiency, thereby strengthening their competitiveness in local and regional markets.

5. Energy & Specialized Logistical Services Market

We operate vigorously in markets associated with the energy sector, providing support services for companies active in oil, gas, and renewable energy. Our presence in this market relies on extreme precision and unwavering commitment to occupational safety standards, making us the first choice for entities requiring specialized technical and logistical solutions in complex and challenging environments.

6. Regional Markets & Strategic Growth

Building upon our solid local foundation, we embrace an expansive vision aimed at extending investment bridges toward regional markets and neighboring countries. We strive to enhance our presence across the Middle East, leveraging our robust international partnerships and advanced governance systems that allow us to compete effectively and deliver a distinguished business model that transcends geographical borders.

QUALITY & COMPLIANCE

A Steadfast Commitment to Global Standards

At EXTRA Group, quality and compliance are the cornerstones of all our investment and operational activities. We believe that the sustainability of our success depends on our rigorous adherence to international standards and regulatory frameworks, ensuring the delivery of high-precision, reliable outcomes that reinforce the trust of our partners and clients.

I. Commitment to International Quality Standards (ISO Standards)

Across all its subsidiaries, the Group implements an integrated quality management system that aligns with international benchmarks. We continuously strive to exceed client expectations by maintaining strict quality control throughout manufacturing, importation, and construction execution. Our companies' attainment of ISO certifications reflects our disciplined approach to ensuring output quality and procedural safety.

II. Compliance with National & International Regulations

EXTRA Group is fully committed to complying with all local and international legislation governing each of our sectors. Whether in pharmaceuticals, oil and gas, or construction, the Group ensures its operations are harmonized with regulatory requirements and approved technical protocols, providing a safe and legal environment that guarantees business continuity without operational risks.

III. Ethical Business Practices & Governance

Our corporate identity is built on the values of integrity and honesty in all dealings. We embrace ethical business practices that refuse to compromise professional values for short-term gains. Furthermore, we apply a stringent governance system that ensures absolute transparency and accountability, positioning EXTRA Group as a trusted partner for regulatory bodies, international organizations, and financial institutions.

IV. Culture of Continuous Improvement & Procedural Innovation

For us, quality is a journey of unending development; thus, we adopt a Continuous Improvement methodology across all management and execution levels. We conduct periodic performance reviews, gap analyses, and technical system updates (such as ERPNext) to enhance operational efficiency, minimize waste, and ensure we keep pace with the latest global advancements in our fields.

V. Transparency & Operational Clarity

We believe that transparency is the foundation for building long-term partnerships; therefore, we are dedicated to providing clear channels for exchanging accurate information and data with our clients and partners. Our periodic reports, as well as our logistical and financial operations, are characterized by total clarity, facilitating auditing and review processes and bolstering the Group's credibility in both local and international markets.

VI. Stringent Safety Procedures & Occupational Health (HSE)

We place the safety of individuals and environmental protection at the forefront of our strategic priorities. We implement rigorous safety protocols at construction sites, petroleum facilities, and pharmaceutical laboratories, while providing continuous training for our workforce to ensure accident-free operations. Our commitment to Health, Safety, and Environment (HSE) is an ethical and professional pledge that ensures resource sustainability and the protection of our human capital.

STRATEGIC GOALS

The Roadmap to Leadership and Sustainability

EXTRA Group adopts a core set of objectives that serve as the fundamental engine for its growth and expansion. We do not merely strive for commercial success; we aim to shape a prosperous economic future through a forward-looking vision based on the following pillars:

I. Strategic Expansion & Geographical Reach

At the forefront of the Group's priorities is the expansion of its operational and investment scope on both local and regional levels. We are working to strengthen our presence across all Yemeni governorates, while simultaneously exploring promising opportunities to extend bridges of cooperation and investment into regional markets and neighboring countries. This ensures maximizing the Group's market share and solidifying its brand as a cross-border economic powerhouse.

II. Localization & Development of Manufacturing Industries

We believe in the importance of self-reliance; therefore, we aim to lead a qualitative movement in developing local manufacturing industries, particularly in the pharmaceutical and construction sectors. The Group seeks to build an advanced national industrial base that contributes to achieving self-sufficiency, reducing reliance on imports, and increasing the added value of national products to rival international standards in quality.

III. Transfer & Localization of Advanced Global Technologies

The Group aims to be the bridging gateway for the latest technological innovations into the local market. We are committed to introducing and deploying advanced technologies in renewable energy, pharmaceutical production, and digital administrative systems. This technical transformation aims to elevate performance efficiency, ensure output precision, and keep pace with the Fourth Industrial Revolution across all our sectors.

IV. Building Long-Term Strategic Partnerships

We are working to forge a unique model of strategic alliances with major global manufacturers, consultancy firms, and international organizations. This endeavor aims to build relationships based on mutual benefit and sustainable trust, granting us access to international resources and expertise that enhance our capability to execute large-scale, complex projects with efficiency and mastery.

V. Active Contribution to National Economic Growth

EXTRA Group is committed to its role as a catalyst for national economic growth; our investments aim to stimulate the economic cycle and support the Gross Domestic Product (GDP). We believe that the Group's success is an integral part of the nation's prosperity; thus, we ensure our investment goals align with comprehensive national development plans to achieve a tangible positive impact on the macroeconomy.

VI. Investing in Human Capital & Creating Sustainable Job Opportunities

Creating sustainable employment opportunities for the national workforce lies at the heart of our strategic goals. We aim to build a motivating work environment that attracts talent and fosters their development through advanced training programs. The Group seeks to empower Yemeni youth and open promising career horizons for them, believing that the human element is the most vital factor in achieving any sustainable institutional success.

STRATEGIC PARTNERSHIPS & GLOBAL ALLIANCES

The Pillars of Our Credibility and Global Solutions

EXTRA Group anchors its leadership in the local market through a robust and deep-rooted network of strategic alliances with premier global manufacturers, technology providers, and engineering innovators, ensuring the transfer and localization of the highest international standards and specifications. This technical presence is integrated with trusted partnerships and close collaborations with major humanitarian and relief organizations under the United Nations, as well as leading financial and funding institutions. Such synergies bolster our logistical and financial capacities to execute major and emergency projects urgently and sustainably with absolute efficiency and transparency. This comprehensive ecosystem of cross-border partnerships, supported by secure supply chains via accredited international suppliers, empowers EXTRA Group to spearhead transformation and redefine excellence—delivering world-class solutions that serve development and stability in Yemen.

EXTRA GROUP

Excellence Across Trade, Services, and Integrated Sustainable Solutions ...

OUR VALUED CLIENTS

Deep-Rooted Trust and Sustainable Strategic Relations

EXTRA Group Serving 100 + clients across Yemen, We takes pride in a client portfolio that encompasses an elite group of international organizations, leading national institutions, and major private sector corporations, all of whom have entrusted our capabilities with their most complex and vital projects. Our relationship with our clients transcends traditional supply concepts, evolving into strategic partnerships aimed at achieving mutual success and delivering outcomes that exceed expectations across the healthcare, energy, and infrastructure sectors. We are proud of our proven track record in supporting governmental bodies, relief organizations, and major industrial firms, committed to providing the highest levels of technical and logistical support to ensure the sustainability and growth of their operations. Every logo in this collection represents a field-tested success story and serves as living proof of the Group's ability to fulfill its promises of quality, reliability, and temporal discipline under all circumstances. These partnerships remain the primary engine of our ambition and the constant drive for us to innovate and develop solutions that meet our clients' aspirations in both local and international markets.

HEALTH, SAFETY, AND ENVIRONMENT (HSE)

An Ethical Commitment and Sustainable Operational Standard

EXTRA GROUP believes that the success of its operations is only complete when it is achieved alongside the highest standards of employee safety, environmental protection, and responsible risk management. Our Health, Safety, and Environment (HSE) framework is not merely a procedural requirement, but a deeply rooted corporate culture that governs daily practices across all our construction, medical, industrial, and petroleum operations.

I. Protection of Human Capital & Worker Safety Programs

The Group places the safety and well-being of its technical and field personnel above all other considerations. We implement comprehensive and continuous training programs to ensure that all employees are fully aware of occupational risks, preventive measures, and emergency response procedures. We are committed to providing advanced Personal Protective Equipment (PPE) and enforcing strict on-site safety protocols to maintain an accident-free and injury-free working environment. We firmly believe that human capital is the most valuable asset in the production equation.

II. Environmental Responsibility & Operational Sustainability

We adopt a responsible environmental approach by minimizing the impact of our industrial, logistical, and field operations. The Group is committed to sustainability standards through safe waste management practices, reduced emissions, efficient resource utilization, and environmentally conscious operational planning. We strive to serve as a model of responsible environmental stewardship in every region where we operate.

III. Advanced Risk Management & Assessment Systems

EXTRA GROUP follows a proactive risk management methodology based on regular and comprehensive assessments of all operational activities. We utilize structured monitoring mechanisms to identify potential risks before they materialize, while developing effective contingency and mitigation plans to ensure business continuity and protect personnel, assets, equipment, and property from operational and accidental loss.

IV. Strict Compliance with Local and International Standards

All Group operations comply with applicable national occupational safety and environmental regulations, in addition to internationally recognized standards such as ISO 2015- 9001 and GDP-HSE STANDARDS - Quality Management Standards for operations .

This commitment reinforces the quality of our deliverables and strengthens our position as a trusted partner for international organizations, regulatory authorities, and institutional clients that require strict adherence to safety, environmental, and public health protocols.

GROUP COMPANIES

Sector: Healthcare & Integrated Medical Solutions

• Operational Vision & Leadership

Extra Pharma serves as the Group's strategic engine within the healthcare sector, playing a central role in securing pharmaceutical supply chains and advanced medical technologies. We do not operate merely as a supplier, but as a strategic partner contributing to the future of healthcare services in Yemen. By localizing global expertise and ensuring the uninterrupted flow of essential therapeutic solutions, even under the most challenging geographical and logistical conditions, we remain committed to supporting national health security.

• Pillars of Excellence & Comprehensive Services

- Strategic Pharmaceutical Portfolio Management:

We hold distribution and commercial representation rights for a selected portfolio of internationally recognized manufacturers, enabling us to provide a broad range of life-saving medicines, specialized drugs, and essential healthcare products.

- Medical Equipment Engineering:

Our technical and engineering teams specialize in the procurement, installation, commissioning, and maintenance of sophisticated medical devices, ranging from precision diagnostic systems to the complete outfitting of operating theaters and intensive care units, supported by sustainable after-sales service.

- Advanced Cold Chain & Logistics:

We invest in advanced logistical infrastructure, including temperature-controlled warehousing and transport systems equipped with precision thermal monitoring, ensuring the integrity of vaccines and biological products in line with World Health Organization standards.

- International Humanitarian Procurement Solutions:

We possess proven capacity to execute large-scale tenders for international and humanitarian organizations while maintaining full compliance with transparency requirements, technical specifications, and rigorous audit standards.

• Value Proposition & Commitment

Extrapharma is committed to a disciplined quality management system governing every operational stage from procurement to final delivery. We believe that access to safe and effective medicine is a fundamental right, and we therefore mobilize our full human and technical capacity to overcome logistical barriers and meet market needs with reliability and efficiency.

Excellence Across Trade, Services, and Integrated Sustainable Solutions ...

EXTRA GROUP

EXTRA PETROLEUM

Sector: Energy, Oil & Gas Services & Commercial Representation.

• Operational Vision & Leadership

Extra Petroleum serves as a vital link between global energy technology and the needs of the local market across upstream and downstream sectors. We provide an integrated ecosystem of technical, commercial, and logistical services that support operational continuity in oil fields, gas facilities, and industrial sites. Our strength is reinforced by a strong international partner network spanning Canada, the United States, and Europe.

• Pillars of Excellence & Comprehensive Services

- Oilfield Supply Technology:

We provide advanced drilling equipment, heavy lifting and handling systems, well-control tools, and related technical supplies, ensuring strict adherence to American Petroleum Institute (API) standards.

- Safety & HSE Systems:

We specialize in comprehensive safety solutions for onshore and offshore environments, including Personal Protective Equipment (PPE), gas detection systems, and advanced fire suppression technologies designed for high-risk operational conditions.

- Logistical Support & Complex Supply Chains:

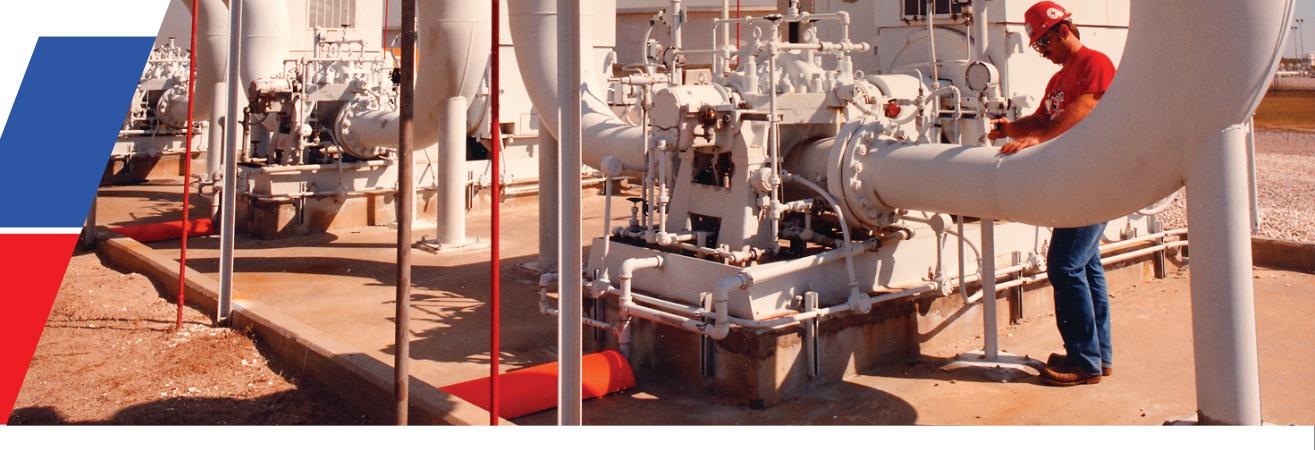

We excel in managing supply chains for remote and operationally challenging locations, providing urgent spare parts and technical solutions that prevent downtime and reduce operational losses.

- Commercial Representation & International Agencies:

Through partnerships with elite global brands such as Crosby, Lewis, and TCK, we provide clients with direct access to advanced innovations in hoisting systems, wire rope inspection, and mechanical fastening technologies.

• Value Proposition & Commitment

Extra Petroleum adopts a Zero Accidents philosophy, placing HSE standards at the center of its operational priorities. We are committed to supporting the Yemeni energy sector through advanced technical consultancy and reliable supply solutions that improve operational efficiency, protect national resources, and uphold the highest standards of transparency and professional responsibility.

Excellence Across Trade, Services, and Integrated Sustainable Solutions ...

Sector: General Contracting, Construction & Engineering Services

• Operational Vision & Leadership

EMAAR EXTRA represents the Group's engineering and construction arm, specializing in transforming architectural visions into tangible realities through the execution of major infrastructure and urban development projects. Our engineering philosophy is rooted in sustainability, innovation, and precision, making us a preferred choice for strategic projects that contribute to reconstruction and long-term development.

• Pillars of Excellence & Comprehensive Services

- Turnkey Construction Projects:

We undertake full project responsibility from conceptual design and geotechnical studies through construction execution and final commissioning, in accordance with recognized international engineering codes.

- Infrastructure & Utilities Engineering:

We possess extensive experience in roads, bridges, water supply systems, wastewater systems, and the development of industrial and commercial facilities.

- Specialized MEP Works:

Our teams include specialists in mechanical, electrical, and plumbing systems, including central HVAC, fire protection systems, and smart building or industrial control solutions.

- Project Management & Quality Assurance:

We utilize advanced project management tools and execution systems to ensure precise coordination, timely delivery, budget discipline, and uncompromising construction quality.

• Value Proposition & Commitment

EMAAR EXTRA is committed to using high-quality materials and modern construction methods that minimize waste and protect the environment. We believe that the quality of construction reflects the quality of life, and therefore we ensure that every project carries the hallmark of durability, excellence, and site safety.

EXTRA GREEN ENERGY

Sector: Renewable & Sustainable Energy Solutions

• Operational Vision & Leadership

EXTRAGREEN ENERGY leads the Group's transition toward clean and sustainable power solutions as part of its future-oriented vision. We provide innovative energy systems designed to bridge energy gaps by combining conventional reliability with renewable sustainability, thereby supporting economic resilience, reducing operational costs, and protecting the environment.

• Pillars of Excellence & Comprehensive Services

- Solar & Hybrid Energy Engineering:

We design and implement large-scale solar power systems for industrial and commercial applications, integrated with advanced storage solutions to ensure continuous and reliable power availability.

- Conventional & Standby Power Solutions:

We provide high-efficiency, low-emission diesel generator systems alongside Automatic Transfer Switch (ATS) solutions that guarantee seamless power transitions during emergencies.

- Energy Auditing & Technical Consultancy:

We deliver energy analysis services for factories, facilities, and major buildings, providing technical recommendations that improve efficiency, reduce waste, and enhance return on investment.

- Sustainable Operation & Maintenance (O&M):

We provide preventive and periodic maintenance services using intelligent monitoring and diagnostic tools to maximize performance and extend system life.

• Value Proposition & Commitment

EXTRAGREEN ENERGY is committed to keeping pace with advances in clean energy technologies. We do not simply supply equipment; we deliver integrated and customized energy solutions tailored to the needs of each sector. Through innovation in storage, control, and distribution, we contribute to building a more sustainable future with reduced dependence on fossil fuels.

Sector: Pharmaceutical Manufacturing & Medical Supplies

• Operational Vision & Leadership

EXTRAMEDICAL.IND represents the industrial backbone of the Group and a cornerstone of national health sovereignty through advanced local manufacturing. We aim to contribute to a qualitative leap in the standard of locally produced medicines and medical supplies, supporting greater self-sufficiency and reducing dependency on imports.

• Pillars of Excellence & Comprehensive Services

- GMP-Compliant Pharmaceutical Manufacturing:

We are working to apply internationally recognized Good Manufacturing Practice (GMP) protocols throughout our production lines to ensure that each product meets the highest standards of purity, consistency, and therapeutic efficacy.

- Development of Sterile Medical Supplies:

We specialize in producing essential medical consumables and supplies required by hospitals and laboratories, using certified raw materials and advanced sterilization procedures.

- Regulatory Research & Development (R&D):

Our laboratories support the development of new formulations, registration processes, and product stability testing to ensure consistent quality across the product lifecycle.

- Quality Assurance & Control Systems (QA/QC):

We maintain internal quality control systems supported by modern chemical and microbiological testing capabilities, ensuring that every batch undergoes rigorous inspection prior to market release.

• Value Proposition & Commitment

EXTRAMEDICAL.IND is committed to developing qualified national talent through continuous technical training and industrial capacity building. We believe that national industry is a strategic safeguard for society; therefore, we place quality above short-term profitability and remain dedicated to producing high-quality healthcare products at fair value while strengthening the reputation of Yemeni manufacturing.

CHAIRMAN'S MESSAGE

Vision Rooted in Excellence... Built for the Future

Dr. Majid Abdulkarim Alshowaiter

At EXTRA GROUP, our ambition has never been limited to building a diversified business entity; rather, we have focused on establishing an integrated strategic platform capable of delivering impact, driving sustainability, and leading growth in one of the most challenging environments.

Our Group operates across healthcare and pharmaceuticals, energy and power solutions, oil & gas and industrial services, as well as construction and infrastructure, positioning us at the heart of critical sectors that directly support humanitarian response, economic stability, and national development.

Our strength lies in our ability to deliver where it matters most.

We bring together:

- Deep local expertise and a precise understanding of the regulatory landscape
- Strong international partnerships and reliable supply networks
- A proven track record in executing projects with government entities, the private sector, and international organizations

This integrated model has positioned EXTRA GROUP as a trusted partner for delivering high-impact, large-scale projects, particularly in complex and high-risk environments.

We recognized early on that reliance solely on external supply chains is not sufficient. Accordingly, we have strategically advanced toward strengthening local pharmaceutical manufacturing as a core pillar—not merely an operational expansion.

In this context, we are working to:

- Establish a modern pharmaceutical manufacturing base in compliance with GMP standards
- Produce high-quality medicines and medical products to meet local market needs
- Enhance pharmaceutical security and reduce dependence on imports
- Enable rapid response of the healthcare system during emergencies and crises

This direction reflects our strong commitment to contributing to healthcare self-sufficiency, strengthening national capabilities, and supporting long-term sustainability.

We fully understand the expectations of international partners.

Compliance, transparency, governance, and performance are not optional they are embedded in our operating model.

Our commitment is centered on:

- Alignment with international standards and global procurement frameworks
- Ensuring supply chain reliability and operational efficiency
- Supporting humanitarian and development objectives with the highest levels of integrity and professionalism

Beyond business, we are driven by a deeper purpose contributing to:

- Sustainable development
- Local capacity building
- Long-term economic resilience

We continue to invest in:

- Advancing local manufacturing and national industries
- Adopting modern technologies and enhancing operational systems
- Expanding regional and international partnerships

Looking ahead, we are confident in the opportunities to further strengthen our role as a reliable regional partner for international organizations, development institutions, and global suppliers.

At EXTRA GROUP, we do not simply meet needs...

we anticipate challenges, deliver solutions, and build lasting partnerships.

We are ready to grow with our partners with confidence, credibility, and unwavering commitment.
